

I feel that the FCC should not be making any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has made my time at home a lot more enjoyable. It was getting so I was constantly being bothered by phone calls that were unwanted. I even was considering having my phone disconnected.

At least once a day, and a lot of times more, I was getting these calls. Now, I hardly ever get them.

In my opinion, this is one of the best laws to ever go into effect.

I sure don't want to see anything happen to take this away and go back to the annoyance I once had to put up with.

Thank you for allowing me to have my say.
